Kick nets are a gateway device

Keys and indices are (mostly) generic

What better suits my watershed?

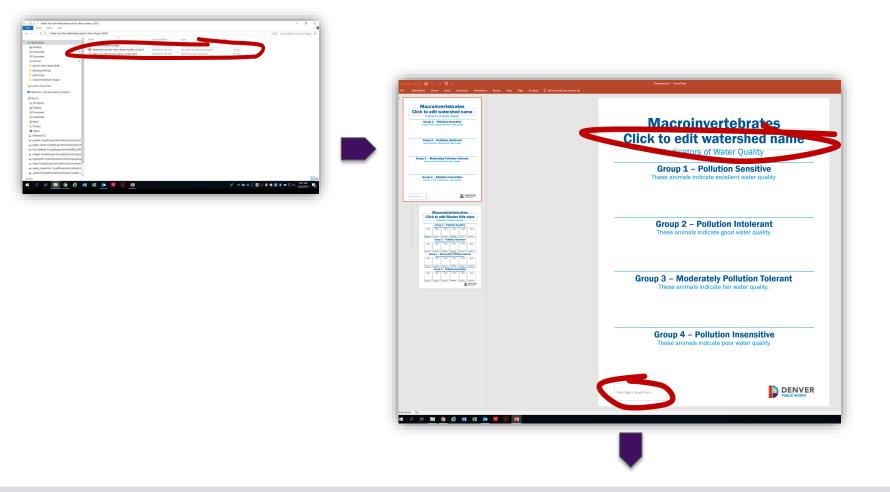

- See, there's *never* been a water penny found in Colorado...
- So, what should we expect to see locally?
- The pros have great data.
- After reviewing and adding my own experience, I find 19 representative organisms.
- And, in New Mexico, I find 13

 some new and some in different groups.

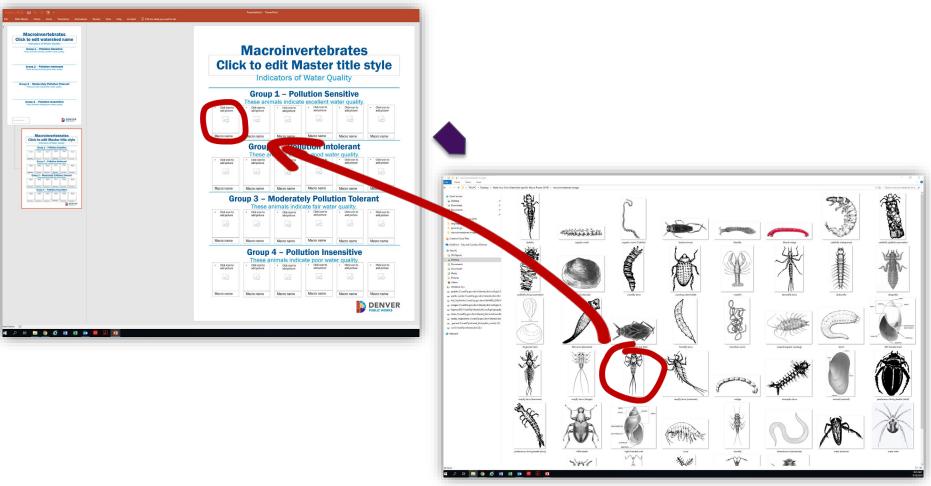

How about a template & clip art?
