RESIDENT SUPERVISOR

About the Organization

Project Oceanology's mission since 1972 has been to nurture enthusiasm for science and for our planet's marine environment from our waterfront facilities on Long Island Sound in Groton. As a year round, marine science and environmental education organization operated by a 501(c)(3) nonprofit association of boards of education, colleges and other educational institutions, Project O has pioneered a hands-on, inquiry oriented approach to science through programs meeting state education standards. Using our research vessels, skiffs, oceanographic equipment, and marine laboratories, Project O leads more than 25,000 students and adults annually as they learn about the ocean, estuaries, rivers and marine life through firsthand, on-the-water science-rich experiences in the surrounding waters of Long Island Sound, Fishers Island Sound and the Thames River.

Resident Supervisor

Project Oceanology seeks a highly responsible Resident Supervisor to ensure the safety and comfort of guests attending overnight Project Oceanology programs during the school year and summer months. The Resident Supervisor will supervise students, implement and enforce standards, and provide a supportive, friendly, and safe environment for students and others utilizing the Project Oceanology hostel. Successful candidates will be passionate, energetic, and versatile team members.

The Resident Supervisor will report to Administrative Manager and must be available to live in the hostel on the premises and generally remain on-site from 9pm-9am when residential camps are in session and when overnight groups are visiting. Applicants should have a broad interest in marine science, oceans, and education. Primary consideration will be given to candidates employed as Marine Science Educators.

The position requires a team player with sound judgment, independence, initiative, maturity, and excellent observation and communication skills. Hours are flexible and varied, including some evenings and weekends.

Education, Experience and Training:

- Marine Science Educator experience is preferred, but not required.
- Residential supervision experience is preferred, but not required.
- Experience working with children is necessary.

Certificates/Licenses:

- Ability to obtain First Aid/CPR and Medical Administration certifications.

Application:

To apply please send a cover letter and resume to admin@oceanology.org. Applicants selected for an interview will be required to submit the Project Oceanology employment application (located at <http://www.oceanology.org/employment>) and submit to background checks as required by law. Candidates applying simultaneously for the Marine Science Educator position need only submit one cover letter and one resume indicating interest in both positions. Preference will be given to candidates that can also fill the Marine Science Educator position.

Project Oceanology is an Equal Opportunity Employer, committed to attracting and retaining a talented and diverse workforce. All qualified applicants receive consideration for employment without regard to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, ancestry, pregnancy, marital status, genetic information, disability, or age.
